

# BAGHEERA ALUMINIUM TABLE BASE

## Product Specification

The Bagheera Table base is a classic design that has been around for a long time. With the Bagheera, we have reinforced all our components to ensure that the table base is extremely durable when used in a commercial environment.

### Main features are

- Delivered Flat Pack. 5 minutes to assemble.
- Internal leg bracket custom-made from stainless steel.
- Screw adjustable feet option available
- Sizes are made to order.
- Select colours from Dulux standard colour range.
- Select table tops from outdoor timber range, compact laminate or Solid aluminium.

## BUILT FOR OUTDOOR USE – STRUCTURAL INTEGRITY AND WEATHER RESISTANCE

### Stainless Steel Hardware

Purpose made corner brackets made from 304 stainless steel. The brackets are made from 3mm thick plate.

### Ease Of Assembly

We have done all the heavy lifting for you. Attaching the leg to the prefabricated frame is done by tightening one single bolt.

### Weather Resistant Aluminium Frame

All tubular components are made from 3mm thick aluminium.

The aluminium is pretreated prior powder-coating, giving you that added corrosion protection.

No short cuts taken. The powder-coating is applied by an approved Dulux applicator.

### Table Adjusters Reinforced

We offer our bases with reinforced polymer end caps. Should you wish to have screw adjustable feet, we can add these for you.

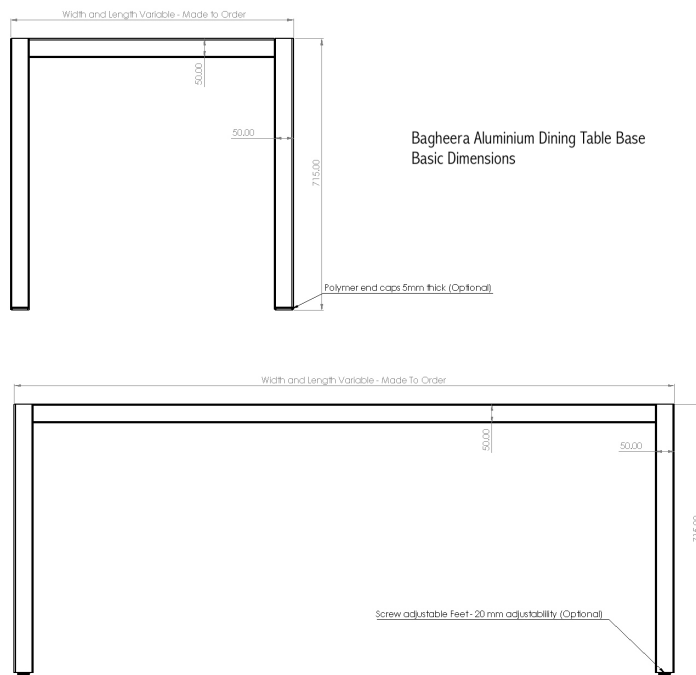

## CUSTOMISE YOUR BASE

### Length and Width

The Bagheera Aluminium Base comes in length increments from 700-2000mm, and the width from 700-1200mm. Call us to discuss your requirements

### Table height

Our table bases standard heights are 715-718mm without a table top. In certain applications, such as aged care, we can increase the height for better wheelchair access. To adjust height of legs we require minimum order quantities.

## FRAME COLOURS

You can select any colour from Dulux Powdercoat finishes. Custom colours for larger projects

## AUSTRALIAN MADE

All our products are 100% Australian made.
